

Efficient Display Management with Sharp Digital Signage Software

Sharp Digital Signage Software (SDSS™) Package provides quick and easy information display management for marketing content.

This versatile software package delivers program creation, registration, scheduling and distribution of pre-scheduled information on Sharp “PN” series LCD monitors, operating easily with a user-friendly interface. The PN-SS01 software enables you to create and display content on a single display. New PN-SS02 software allows you to create content and remotely distribute programs and schedules over a network. The optional PN-SV01 viewer software permits content prepared with PN-SS01 or PN-SS02 software to be stored on USB Flashdrives for playback to an unlimited number of locations.

Sharp Digital Signage Software

NEW PN-SS02: Digital Signage Software
Network Version
